

HEPA-3 Air Filtration & Purification Unit

Introducing a new high capacity air cleansing unit. This new midrange **HEPA-3** purifying unit by ProAir will help clean the air to protect both driver and passengers. The **HEPA-3** when used in conjunction with surface cleaning and sanitizing, will help in eliminating harmful airborne particulates. The unit is easy to mount and ideal for all type of buses including school, commercial, paratransit, tour & city transits.
